## IN THE SPOTLIGHT

**USA20 Dr. Poole's** site has been a part of PRONOUNCE since 2016. Despite staffing challenges over the course of the last few months, the research team has diligently pre-screened all potential candidates. The research department has done an exceptional job creating awareness of the study among the referring departments. During the month of March, two new patients took part in screening due to the site's perseverance and dedication. Congratulations and thank you for your recruitment efforts!
