

TADALAFIL IS  
\$3.00/PILL (5MG).

SILDENAFIL IS  
\$2.00/PILL).

## Save time and money. Pick up your prescriptions at the UCA Dispensary.

Urology Centers of Alabama is pleased to offer our patients the opportunity to obtain Sildenafil (the active ingredient in Viagra®) and Tadalafil (the active ingredient in Cialis®) at a significant cost savings over the retail purchase price.

Retail pharmacies charge approximately \$42 per one Viagra tablet and approximately \$50 per one Cialis tablet. Many patients are able to split the tablets and still obtain an effective dose, lowering the cost significantly. Generic Sildenafil and Tadalafil are available in reduced strengths and are available for purchase through the Urology Centers of Alabama Dispensary. The purchase prices are listed below:

Sildenafil			Tadalafil		
Available Strength	Available Quantities	Purchase Price	Available Strength	Available Quantities	Purchase Price
20mg	30 tablets	\$60	5mg	30 tablets	\$90
	90 tablets	\$180	20mg	30 tablets	\$150

To qualify, a patient must have a prescription and be willing to pay cash. Insurance will not be accepted as a payment option.

A prescription may be requested from your Urology Centers of Alabama physician if desired. (Of course, your doctor will need to decide if this is an option for you.)

No prescription will be filled until payment is received in full.

Our in office dispensary is located in our Homewood location:

**3485 Independence Drive  
Homewood, AL 35209**

where patients can purchase the medicine directly or have it shipped via FedEx next day shipping for a \$20 dollar charge.

We are currently offering FREE Ground Shipping or Curbside pick up on all ED medications!
