

COVID-19 SCREENING QUESTIONNAIRE

1. Do you have any of these symptoms that are not caused by another condition?

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Recent loss of taste or smell
- Sore throat
- Congestion
- Nausea or vomiting
- Diarrhea

2. If you are not fully vaccinated, have you been in close contact with anyone with COVID-19 in the past 14 days?

- **Fully vaccinated** means that it has been 2 weeks or longer since receiving the second dose in a 2-dose series, such as the Pfizer or Moderna vaccines, or greater than 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine. If you don't meet these requirements, regardless of your age, you are NOT fully vaccinated.
- **Close contact** is being within 6 feet for 15 minutes or more over a 24-hour period with a person; or having direct contact with fluids from a person with COVID-19 with or without wearing a mask (i.e., being coughed or sneezed on).

3. Have you had a positive COVID-19 test for active virus in the past 10 days, or are you awaiting results of a COVID-19 test?

4. Within the past 14 days, has a public health or medical professional told you to self-monitor, self-isolate, or self-quarantine because of concerns about COVID-19 infection?

- **Isolation** is what you do if you have COVID-19 symptoms, are awaiting test results, or have tested positive. Isolation means you stay home and away from others (including household members) for the recommended period of time to avoid spreading illness.
- **Quarantine** is what you do if you have been exposed to COVID-19. Quarantine means you stay home and away from others for the recommended period of time in case you are infected and are contagious. Quarantine becomes isolation if you later test positive for COVID-19 or develop symptoms.

Patients or visitors who answer "yes" to any of the above four questions, will not be allowed into the facility and will need to monitor for symptoms and be rescheduled 14 days later.
